**Asunto:** rats

Just wanted to advise I have noticed rats on my ship and suddenly in both my vehicles, Cabo Adventures has rats too. Only suggestion I have is that trash is left on campus overnight probably feeds the rats, especially the trash outside the marina gate where Dany Tours dumps a lot of food which remains all night.

Staff said they would dump trash at night, which lasted two days.

We will get rat traps for ourselves, its no big deal. I just thought you should know about the rats.

Thanks,

Mike
